SPECIFICATIONS FOR FSI-CFT820

Features:

1. High Efficiency in Heat Transferring
2. Rolling Process
3. Seamless & Integral Tubing
4. ISO9001:2008 Certified

Product Description:

Product Name: Copper Omega Loops for Water Heater

Part No.: FSI-CFT820

Place of Origin: China

Price Terms: FOB, CIF, DDP

Payment Terms: T/T, L/C

Capacity: 100 Ton/month

Minimum Order: 0.5 Ton

Lead Time: 30days

Features:

1. Materials: C12200.
2. Performances: high efficiency, energy-saving, durable in use, eco-friendly and materials-saving.
3. Processes: Extruded processes (Rolling).
4. The Fin height reaches 10~15mm.
5. The surface area ratio-outside to inside reaches 8~15.
6. Providing series of finned tubes for heat exchanger such as finned tube, finned coil tube, dual finned coil tube.
7. Widely used in petroleum industry, petrochemical industry, metallurgical industry, power industry, food, maritime, home appliances such as refrigerator and air-condition, automobile industry etc.
8. Large volume, high quality, most competitive price and excellent services
9. OEM is available according to drawings and/or samples
10. Sold well in U.S.A, Germany, Australia etc.

Packing:

Outside: Plywood sea-worthy case or pallet.
